This addendum will amend **Bid #15-079, Liquid Propane (LP) Gas for County Facilities and Schools** originally issued on Friday, January 22, 2016. This clarification is being provided to all known and registered correspondents in response to questions received. All addenda and original bid documents are also available online at: [www.gtcounty.org](http://www.gtcounty.org), select "Bid Opportunities" from the *Quick Links* box on the home page.

---

**Question 1:** Section 3.2, page 4 states, *For bidding purposes and for pricing after contract award, the bidder shall use the weekly LP Gas Average Price found on the State Financial Accountability Authority (SFAA) Procurement Services website under "LP Gas Averages".*

What posted terminal point is used to set the price found on the SFAA website? Are you pulling the cost from OPIS or BPN's Newsletter? Are you using MT Belvieu or local terminal point?

**Response:** **Neither the County Government nor the School District is a subscriber to OPIS or any other published service which reports terminal prices. We do not have access to those figures. The intent here is for the provider to construct their markup against the SFAA LP Gas Average published prices, so that the when auditing the price charged us, we may verify that against the SFAA average plus the agreed mark-up. Your mark-up should be tailored to provide whatever adjustment is necessary between the terminal point you intend to use, and the SFAA.**

---

**Question 2:** Tank Checklist County locations, page 26, Tank sizes and quantity are supplied for the County locations however, tank ownership is missing. Can you provide this information? Addendum 1 provides tank ownership information for the school district facilities but not the county facilities.

**Response:** It is possible there may be one or two exceptions, but for the purposes of this proposal, please consider that all the tanks on the list for the County will be supplied by the provider.
