**PROCUREMENT FOR: Corporate Aircraft Hangar at Georgetown County, SC Airport (KGGE):  
Design/Build**

Commodity Code(s): **90606, 90610, 96812**

---

This addendum will amend **BID #16-083, Corporate Aircraft Hangar at Georgetown County, SC Airport (KGGE): Design/Build** originally issued on Friday, September 2, 2016. This clarification is being provided to all known and registered correspondents in response to questions received. All addenda and original bid documents are also available online at: <http://www.georgetowncountysc.org>, select Quick Links, "Bid Opportunities" and "Current Bids."

---

**Question 1:** I have a question regarding the "High Power" hangar door the customer requests in 1.2. Do you have specification for this door? I will need this information to properly engineer the building to support the weight of it. Sections 1.2 and 1.7 do not give the specifications on the hangar door. I will need detail specifications from the hangar door manufacturer so I can have the building engineered to support the door. If the end user will be using Higher Power I will need them to send me the specifications before I can engineer the building. If they decide to use a different manufacturer for the hangar door, I will need that company to send the door information to me.

**Answer:** Please keep in mind that this is a Design/Build project. With that in mind and the specifications as listed in the bid document, it is the responsibility of the Contractor to correctly identify what would be needed for their design/build of the corporate hangar. Please refer to section 1.3 where it states, "The owner would prefer the front aircraft hangar door to be an insulated self-supporting door, such as that of the brand, "Higher Power". To assist you with this request the department can only guide you to visit the following links:
