This addendum will amend **Bid #09-002, Roof Replacement at Summary Court** originally issued on Friday, January 02, 2009. This clarification is being provided to all known respondents in answer to the questions received below. All addenda and original bid documents are also available online at: <http://www.georgetowncountysc.org>, select "purchasing" and then "current bids".

Question: Did you mean to specify a 1.5" standing seem metal roof? The bid documents show a 1.75" standing seem roof specification.

Response: **The County is specifying a 1.75" standing seem metal roof to replicate the roof currently installed on the Judicial Center building adjacent to this project. The intent is to present a uniform campus appearance.**

Question: Will any hazmat or asbestos testing be required before the roof demo?

Response: **No, this was not specified in the bid documents. The age of the current roof is not such that asbestos materials would have been used.**

Question: Will there be any bonding required on this project?

Response: **No, this was not specified in the bid documents. If the project evolves to the point that this is necessary, the County will negotiate a change order with the contractor named for award.**

Question: May I submit a Request for Substitution to see if my roofing material can be approved as acceptable?

Response: So long as the product proposed meets the specifications required, this project was bid upon a **“Brand Name or Equal”** specification. (See page six of the bid documents.) To assist in the review of these materials, each offeror will be required to attach descriptive literature and manufacturer’s specifications on the product bid. The item below shall be inserted as item 6) on page six, after the BRAND NAME OR EQUAL specification.

- 6) Each bid shall include descriptive literature and manufacturer’s specifications on the product bid. However, the providing of this material shall not be considered a substitute for listing deviations.
